of the people. The whole country is alive with ANDY JOHNSON Conservatism. There but one black sheep among the entire lock of counties in this division of the State, and that one is Washington; and against Col. BAXTER gets through with his exposition of the Radical lies that have been told in that county, she will be all right. The tale that Secretary FLETCHER has been telling at Nashviile, since his return, in regard to the unity of feeling in East Tennese in support of Brown ow and his bogus "Legislature," is a slander upon the honest vecmanry of this section. Take a few ilinstrations, for which your correspondent vonches: While Flureness was delivering his speech, sometime since in Dandridge, his statements were repeatedly denounced by persons in the Court House, as false; and when he came to speak of his negro policy he was invited to the streets by discharged Federal soldiers, who told him that they would knock his negro policy out of him. There he was treated with silent contempt. He then came to Much interest is manifested in the enterno favor. This is the full extent of the cholera to passing through Virginia, and acgreat enthusiasm with which these official cordingly went to the Philadelphia Convenlisunionists met in their recent visit to up- tion the northern route.

The spirit of the speeches and private conversations of these corrupt demagogues have been to incite hostility between the onservatives and Radical element. It is alleged that FLETCHER remarked in a private conversation that bushwhacking would have to be resumed-that the rebels and must be driven from the country. This sentiment is now going the rounds of the Radical circles, and is endorsed by the Radical circles, and is endorsed by the Radical circles.

It is further alleged by these self-styled patriots, that there will be more rebel blood shed in Tennessee within the next few months than was shed during the late warthat the country had to be rid of rebels and copperheads. Such are the indoctrinations of BrownLow and his "law-abiding Secretary." But thanks to an All-wise Provilence, such vicious counsels have their in fluence on but a few-a miserable misguided

In connection with the speeches that have been made; with a view to the prejudicing of the public mind against the National Administration, pumphiets and newspapers, of the most malignant Radical type, are being circulated, free, in the upper counties, especially in Washington and Carter. Greatr desperation was never manifested by an expiring faction than that exhibited by the Radicals of East Tennessee. "Power, or revolution," is their motto. Brownlow and FLETCHER would rather see Tennessee thed afresh in blood than to have their

dministration of the State finances exposed. STATE FINANCES. In this connection a word in regard to the Athens branch of the Bank of Tennessee. As there is considerable feeling manifested throughout East Tennessee as to the manner in which the Governor has attempted to smooth over his action in regard to this ank, we have taken some pains to useertain the facts touching his action in the ises, and understand them to be the dlowing: When the war broke out, THOMAS CLEAGE, as Cashier of the bank, had some fifty-nine thousand dollars in gold and silver in his possession. A short time before the occupation of Tennessee by the Federils, W. S. CALLOWAY, one of the directors of the bank, advised CLEGE to sell fifty thousand dollars of the gold in his posession, for its value in sterling exchange, to to be up to, if not a little in advance of the which he assented, Titos, Calloway and DICK WITSON making the purchase, giving their notes for the amount. Unexpectedly to all parties, the lines were changed and Athens was in the hands of the Federal the terrible riot which ensued. We have for the Middle District of the Covernment, Mr. Calloway remaining now to chronicle another outbreak of the cuit Court for the Middle District of Tennessee, October Term, 1668; within the lines, in Cleage's debt, as above indicated. When the war closed Cleage went to Nashville, and proposed to Browstow to return what money he had on hands, including the Calloway debt, as the sterling exchange was at his command. But the pions Governor would not treat with a rebel, and refused Mr. Cleage a conference, who left the State and went into business in Quincy, Illinois. In a short time Mr. Calloway, says Browstow, came forward and proposed to Browstow. On last Saturday night a mob of about the forest the first individual check for fifts thousand.

It has been, and will be the endeavor of the Faculty to inculcate the Christian Religion, as held in all times by sound Presbyterians, the sole headship of Jesus Christ over his Church, the exclusively spiritual nature of her functions, the entire independence and separation of Church and State, and the sacred importance of holding the Church and all her teachings apart from and above every secular and political concernment. It is manifest hence, that the advantages of this school of sacred learning can be consistently embraced by all true Christians, irrespective of diversities of opinion touching scenlar affairs.
